

24 March 2016

Notice relating to the following document titled “Distribution Arrangement for the distribution of water under the distribution operations licence for the Pioneer River Water Supply Scheme” and dated 18 February 2016.

On 24 March 2016, the Water Amendment Regulation (No. 1) 2016 (the WA Regulation) dissolved Pioneer Valley Water Board (PVWB) and converted the statutory body to alternative institutional structures – Pioneer Valley Water Co-operative Ltd (PVWater) and Pioneer Valley Water Mutual Co-operative Ltd (PVMutual).

Immediately before the dissolution, PVWB was the holder of a distribution operations licence (the DOL).

For the purposes of the Water Act, PVWB is the “old entity”.

In accordance with section 691A(2) of the Water Act, the WA Regulation identifies the “old entity document” held by the old entity and available for public access on the old entity’s website before the dissolution.

The old entity document is the document following this notice, and about which this notice relates, titled “Distribution Arrangement for the distribution of water under the distribution operations licence for the Pioneer River Water Supply Scheme”.

Under section 691(6) of the Water Act, after the dissolution of the old entity, the old entity document has effect as a contract known as the “distribution contract”.

The distribution contract relates to the distribution of water under the DOL between any entity that becomes the DOL holder (noting that PVWater currently holds the DOL) and the holder of each water allocation distributed under the DOL.
